1 Project Background

The Ministry of Housing Urban Poverty Alleviation, Government of India has launched Pradhan Mantri Awas Yojana (PMAY) - "Housing for All by 2022" a comprehensive urban housing scheme to achieve the objective that **"By the time the Nation completes 75 years of its Independence, every family will have a pucca house"**

The scheme seeks to address the housing requirement of urban poor including slum dwellers and will be implemented through four verticals, giving option to beneficiaries & ULBs. A beneficiary family in this mission will comprise husband, wife, unmarried sons and/or unmarried daughters. The beneficiary family should not own a pucca house either in his/her name or in the name of any member of his/her family in any part of India.

The four verticals of the PMAY-HFA (Urban) as per guidelines are:

- Slum rehabilitation of Slum Dwellers with participation of private developers using land as a resource
- Promotion of Affordable Housing for weaker section through credit linked subsidy
- Affordable Housing in Partnership with Public & Private sectors
- Subsidy for beneficiary-led individual house construction

The Pradhan Mantri Awas Yojana (PMAY) will be implemented as a Centrally Sponsored Scheme except for the component of Credit Linked Subsidy which will be implemented as a Central Sector Scheme. The scheme also prescribes certain mandatory reforms for easing up the urban land market for housing, to make adequate urban land available for affordable housing. The scheme will cover the entire urban region and will be implemented in phased manner. In the 1st phase Shimla, Solan, Nahan, Bilaspur, Hamirpur, Una, Mandi, Kullu, Dharamshala, Chamba, Parwanoo, Baddi and Nalagarh Towns are included under the mission.

The Pradhan Mantri Awas Yojana (PMAY) envisages "Housing For All by 2022" by encouraging ULBs to tackle the problem of urban poor housing in a definitive manner. The Housing For All Plan of Action (HFAPoA) is an important instrument and the foundation for cities to attain the objective of PMAY. It is a citywide plan of action, which will provides the demand of housing by eligible beneficiaries in the ULB along with the interventions selected out of four verticals of the PMAY.

The demand survey involves following steps:

Initiate Demand Survey: The environment for the survey needs to be created by organizing meetings with all concerned stakeholders like elected representatives, Officials, NGOs, CBOs, Slums etc to explain the objective of the demand survey and Housing for All (Urban) Scheme Guidelines.

Survey: Before starting the demand survey, the Consultants will follow the PMAY-HFA (Urban) Guidelines and after that prepare a prioritized list of zones/wards in close consultation with officials of ULBs. Quality Assurance / Quality Control: The assessment of the quality indicators on an ongoing basis during the course of the entire survey is essential. It is important to document critical issues in a systematic manner in terms of both qualitative reports and quantitative indicators (namely, response rates, missing data proportions, test reliability through random checks etc) which would give essential information about the quality of a survey.

Data Entry, Data Compilation, Verification and Validation: Survey data has to be collected in the formats prescribed by PMAY-HFA (Urban) Guidelines and the data entry has to be done in the standardized MIS system, data compilation, collation and analysis processes will take place simultaneously as per all the information generated in the demand surveys. In this way, standard routine checks can be easily conducted. Any errors found can then be dealt with

while the survey is in progress in the field. Data entry should be carried out as per MIS format suggested by DUD.
